Thanks, Casey. I understand. I also just spoke with Gloria and it's back on track. Your involvement today was extremely helpful and crucially important. I can't overstate how much your action did to get this back on course or how much I appreciate and value your involvement. Thank you!!
Curt

Thanks I found the other emails and attachments with a little digging. I will try to bring some attention and maybe some resolution to at least the IC issue. As we've discussed before, I'm the Reuse Coordinator, not the RPM for the site or the manager for that RPM. That means I have limited involvement/influence. But since the ICs directly affect the RfR which I'm putting together, I need to follow up. Will keep you posted.

Thanks,
Casey
